Those who have already been to Bosnia and Herzegovina know that the country offers a great deal: from enjoying its clear and capricious rivers, which are perfect for rafting and fishing, its large mountains that attract hikers and skiers, and its numerous caves, to visiting the country's cities with their many cultural and historical landmarks left behind by the Illyrians, Romans, Byzantines, Ottomans, Austro-Hungarians, and multiple Slavic cultures. Bosnia and Herzegovina also boasts a rich cultural and social life.

If any of these things interest you, then you've found both the right book and future destination!
